# Low Carbon Vehicle Technology Exhibition

Promoting the reduction of transport CO<sub>2</sub> emissions

A seminar and exhibition hosted by  
Cenex and Leeds City Council

**20 July 2007 8.30 - 15.00**  
**Leeds United Football Club, Elland Road**

**Electric Vehicles**

**Petrol and Diesel Hybrids**

**Hydrogen / Fuel Cell Vehicles**

**CNG, Bio-Methane, Dual Fuel**

- Exhibition and seminar with presentations by low-carbon technology providers
- Cenex and Leeds City Council partnership - financial incentives for local authorities, fleet managers and bus operators explained
- Vehicle demonstrations throughout the day
- Test driving of hybrid and electric vehicles
- Demonstrations and discussion of other benefits associated with low carbon technologies, such as reduced air pollution and engine noise

This event is designed to promote effective actions to reduce transport CO<sub>2</sub> emissions that support the Draft Climate Change Strategy for Leeds. Leeds City Council together with Cenex are investigating a number of options to reduce the CO<sub>2</sub> impact of its fleet, such as the 'hybridisation' of its Transit van fleet and the conversion of some of its local bus fleet to diesel hybrids. Further actions are being implemented within the West Yorkshire Transport Plan Partnership that will address climate change and other related environmental problems.

Cenex is the UK's National Centre of Excellence for Low Carbon and Fuel Cell Technologies and a member of the Low Carbon Knowledge Transfer Network (KTN).

Cenex assists the UK automotive supply chain to exploit the potential of low carbon technologies, including energy efficient powertrains, combustion and fuel processing systems that enable the use of alternative fuels from renewable sources and advanced materials for vehicle weight reduction. For further information, visit [www.cenex.co.uk](http://www.cenex.co.uk)

## Low Carbon Technology Vehicle Exhibition 20 July 2007

### The Banqueting Suite, Leeds United Football Club, Elland Road, Leeds

<b>ITINERARY</b>		<b>Vehicle viewings and demos throughout the day, in tandem with presentations</b>
8.30	<b>Outside:</b> Vehicle demonstrations in the car park	<b>View vehicles</b>
9.00	<b>Banqueting Suite:</b> Event opens	Cllr Barry Anderson, Leeds City Council
9.10	Overview of the day's proceedings	Cllr Steve Smith, Leeds City Council
9.20	'Setting the Environmental Scene'	Dave Cherry, Env. Assessment Mngr, Leeds CC
9.40	'The role of Cenex in the low carbon automotive sector'	Robert Evans, CEO Cenex
10.05	<i>Technology Supplier 1</i>	Speaker tba
10.25	<i>Technology Supplier 2</i>	Speaker tba
<b>10.45 - 11.15</b>	<b>BREAK</b>	<b>View vehicles</b>
11.15	'Strategies for Fleet Improvements'	Andrew Whittles, Cenex
11.40	<i>Technology Supplier 3</i>	Speaker tba
12.00	<i>Technology Supplier 4</i>	Speaker tba
12.20 - 13.00	Panel discussion	Chair: Cllr Steve Smith, Leeds City Council
<b>13.00 - 13.30</b>	<b>LUNCH</b>	
13.30 - 15.00	<b>Outside:</b> Vehicle demonstrations	<b>View vehicles</b>

If there is sufficient interest, a **free bus service** will operate from Leeds Station to Elland Road during the early morning and mid afternoon. Further details will be sent to registered visitors prior to the exhibition.

Please return this reply slip (or a photocopy) to: **Julia Corfield, Environmental Studies, Development Department, Leeds City Council, FREEPOST LS315, LEEDS LS2 3YY**

**PLEASE PRINT ALL DETAILS**

I wish to register for the Low Carbon Technology Vehicle Exhibition:

Full name \_\_\_\_\_

Organisation \_\_\_\_\_

Position \_\_\_\_\_

E-mail address \_\_\_\_\_

I will attend (please tick):

- Seminar only (9.00 - 13.30)
- Seminar and exhibition (8.30 - 15.00)
- Exhibition only (8.30 - 15.00)
- I would like to use the courtesy bus service (if this is provided)
