

# Public Sector pressures and real world requirements

Dale Eynon  
Head of Fleet Operations  
Environment Agency  
May 2012

# Environment Agency & Fleet

- ➔ Government Agency – protect and enhance
- ➔ £1B business covering England & Wales
- ➔ 10,000 employees
- ➔ Fleet Operations – 38 FTE's
- ➔ Lead for fleet within DEFRA
- ➔ Economic challenges

# Fleet Statistics

- ⇒ Approx. 10,000 fleet assets
- ⇒ Mixed and complex fleet
- ⇒ Significant “grey fleet”
- ⇒ 28% of our carbon emissions come from fleet
- ⇒ Commercial fleet assets reduced by 18%  
(carbon/cash savings) in last 3 years
- ⇒ Mileage reduced by 1.6 million miles  
(897tonnes) in last 3 years

# Economic Challenges

- ⇒ Delivery targets unchanged
- ⇒ Capital and Revenue reductions
- ⇒ Carbon reduction targets still needed
- ⇒ Cost of technology
- ⇒ Safety Issues and Operational performance
- ⇒ Winning hearts and minds

# The Solution ?

- ➔ Review asset utilisation rates
- ➔ Use of Government contract frameworks
- ➔ Changing delivery model for fleet services
- ➔ Better planning of operational work
- ➔ More effective use of external suppliers
- ➔ Select most cost effective environmental solutions

# The Future ?

- ⇒ Mileage, carbon & fleet reduction targets
- ⇒ Standardisation of fleet
- ⇒ Heavier usage of remaining assets
- ⇒ Greater sharing of fleet assets pan government
- ⇒ Continued reduction of carbon emissions
