# Electric Future Will consumers embrace the new wave of electric cars?

Jerry Hardcastle Vice President, Vehicle Design & Development Nissan Technical Centre Europe

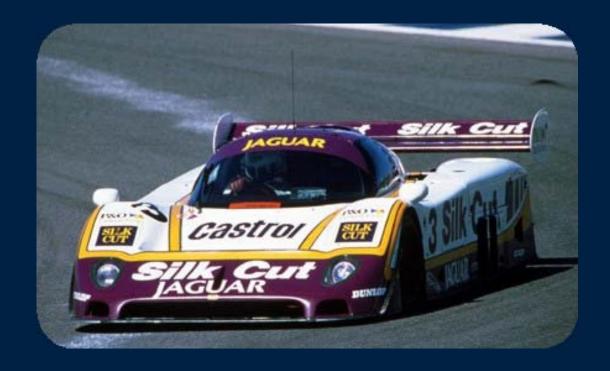

#### Fun to Drive . . .

## Predicting the future is difficult . . .

## Electric cars - we have been here before . . .

## So what has changed . . .

# EVs are coming . . .

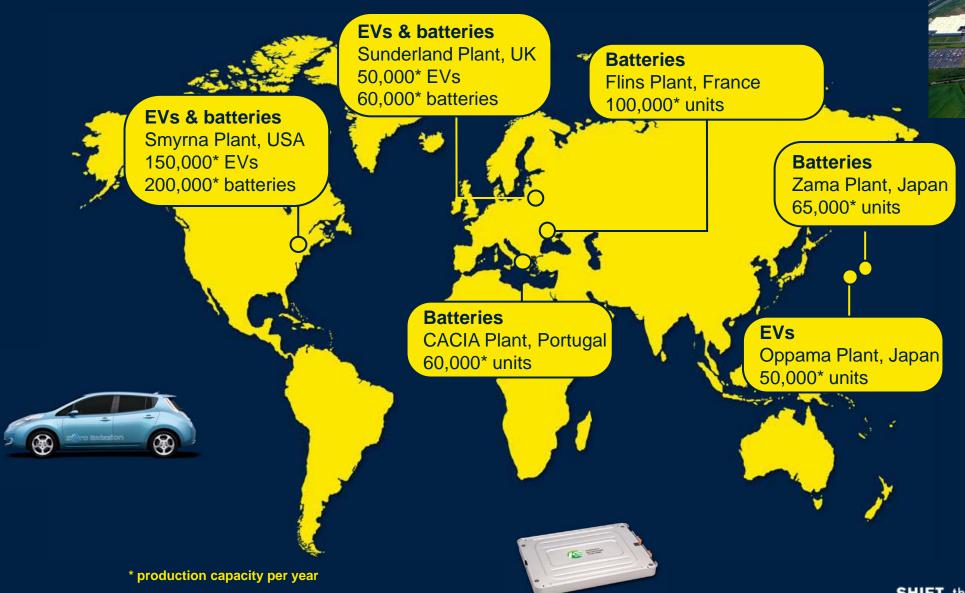

## Core technology development . . .

#### Mass production for mass marketing . . .

#### **Electric vehicle infrastructure...**

#### Home charging

**Normal charging** 

#### Charging network

#### **Destination charging**

Round trip

Normal & quick charging

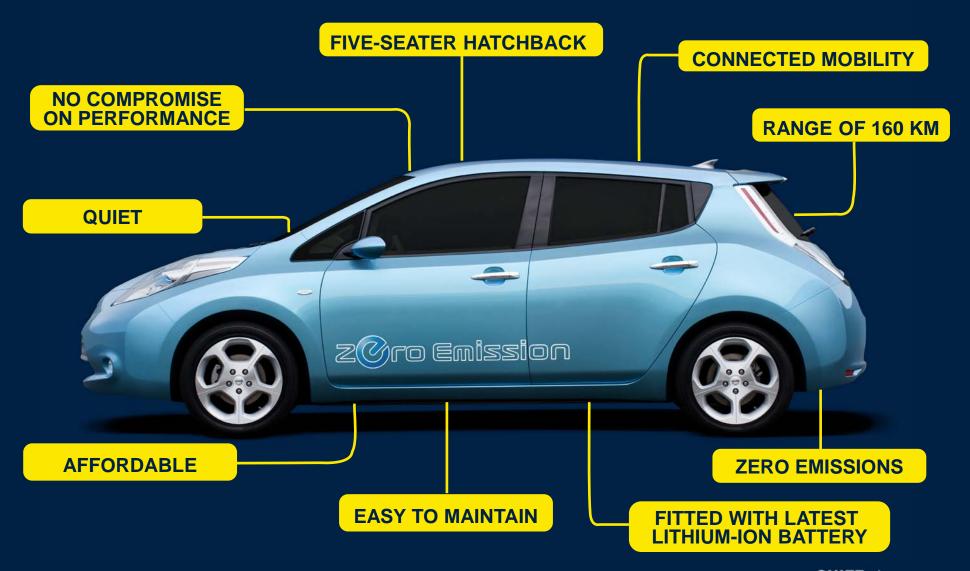

#### **Pathway charging**

**Quick charging** 

#### **Electric vehicle benefits...**

#### Fun to drive ...

'It really does accelerate quite fast.... Bloody hell-it's very good!'

Bibi van der Zee, 'The Guardian' Tesla Test Driver

#### Fun to drive ...

'I'm surprised at how well it goes..... it's responsive....'

Phillip Kraal- Mitsubishi iMiev Test Drive Customer

#### Fun to drive . . .

'Just in terms of acceleration and handling- better than a normal car.....'

London O2 Nissan LEAF
Test Drive Customer

## Electric Future

## Will consumers embrace the new wave of electric cars?

Committed to be a global leader in zero emission mobility
