

Goodbye old boundaries

Energy and the future of mobility

Michael Hurwitz
July 2013

Boundary one – how you make them

Boundary two – how you fuel them

Boundary three – part of a system

Boundary four – which emissions exactly?

Boundary five – end of life?

Boundary six – it's all going to be different...

“I drove my car to work”

Boundary six – it’s all going to be different...

“I drove my car to work”

Boundary six – it's all going to be different...

“I drove my car to work”

Thank you
