

LCV2014 to host Low Carbon Vehicle Dinner and Awards Ceremony with the LowCVP

- *LowCVP Low Carbon Champions Awards to be presented on 10 Sept in Milton Keynes*
- *Event set to be the leading LCV industry social & networking occasion of the year*

Loughborough, UK, 15 April 2014

Cenex – the UK’s first Centre of Excellence for low carbon and fuel cell technologies and the organiser of the UK’s largest technology showcasing and networking event for the UK low carbon vehicle community (www.cenex-lcv.co.uk) – today announced a collaboration with the Low Carbon Vehicle Partnership (LowCVP) for this year’s Low Carbon Vehicle Event, LCV2014. For the first time, Cenex will be hosting an LCV2014 networking dinner on Wednesday 10 September 2014, at Jury’s Inn, Milton Keynes. The central feature of this year’s dinner will be the LowCVP Low Carbon Champions Awards.

The LowCVP Low Carbon Champions Awards are a well-established event on the LCV industry calendar. They celebrate the achievements of organisations and individuals who have made the greatest contribution to accelerating the shift to low carbon vehicles and fuels over the preceding year. The Awards are accredited by the RSA which enables the winners to be considered for entry to the highly prestigious European Business and the Environment (EBAE) Awards.

Full details about how to enter for the Awards and about category sponsorship opportunities etc will be published on the LowCVP website, and elsewhere, shortly.

All LCV2014 Delegates and Exhibitors are invited to the LCV2014 Dinner on 10th September, which will commence at 18:30 and include a drinks reception, three course meal, key note speaker and awards ceremony. Tickets cost £80 and will be available from Thursday, 1st May. There are a variety of purchasing options available including full tables, half tables and individual tickets.

Robert Evans, CEO of Cenex says, “We are extremely excited about the addition of an event dinner at LCV2014 and we are pleased that LowCVP has partnered with us to run their Low Carbon Vehicle Champion Awards. The LCV event has become a central meeting

point for all key stakeholders within the industry and the dinner will provide an ideal opportunity for the community to come together to discuss the issues of the day.

“The LowCVP’s Low Carbon Champions Awards are recognised as the premier awards for our sector. The awards help recognise achievements, best practice and successes within the sector and hosting the Awards at the LCV 2014 dinner has obvious synergies. This collaboration is an example of the close working relationship between Cenex and the LowCVP that dates back to the formation of Cenex in 2005.”

Andy Eastlake, the LowCVP’s Managing Director said: “We are delighted to be working with Cenex on this exciting new event.

“I think it really will be the ‘can’t miss’ social and networking event of the year for all those involved in the rapidly growing low carbon vehicles and fuels industries.”

Tickets to the Low Carbon Vehicle Dinner can be purchased by contacting lcvsales@cenex.co.uk or +44 (0)1509 635 756. Parking is available at the venue.

Notes to editors:

About Cenex LCV2014

The LCV event (www.cenex-lcv.co.uk) has established its unique positioning for the Low Carbon Vehicle community as the technology showcasing and networking event. Attracting UK and international visitors, LCV combines a technology exhibition with broad B2B focus, a Ride & Drive in a test track environment, networking activities and an extensive seminar programme.

It presents an opportunity for all stakeholders in the low carbon vehicle sector to showcase and evaluate current and future technologies and to discuss the issues facing the sector. Cenex partners with a number of Government departments and industry heavyweights to ensure the event offers exhibitors and guests the most comprehensive access to the latest technologies, initiatives and discussions that are driving the UK’s low carbon vehicle sector.

Last year, LCV2013 set a new record of attendance with over 1,950 delegates and 154 exhibitors.

About LowCVP and the Low Carbon Champions Awards

The LowCVP's Low Carbon Champions Awards are designed to identify and promote examples of outstanding and innovative practice in accelerating the shift to lower carbon vehicles and fuels and reducing road transport emissions.

The LowCVP is a public-private partnership that exists to accelerate a sustainable shift to lower carbon vehicles and fuels and create opportunities for UK businesses. Approaching 200 organisations are engaged from diverse backgrounds including government, automotive and fuel supply chains, vehicle users, academics, environment groups and others.

The LowCVP Champions Awards were established in 2010. The 2012 awards were presented as the central component of an evening celebrating the LowCVP's 10th Anniversary and which included a reception addressed by Parliamentary Under-Secretary of State for Transport, Norman Baker MP at the Institution of Mechanical Engineers on Tuesday, 29 January 2013. More details of 2012 [Awards winners and sponsors here](#).
